Apply for Collaborative Support in
DISCOVERY,
INCUBATION and
ACCELERATION

incore

From June 2022 – June 2023 the INCORE Project will provide Collaborative Support in Discovery, Incubation and Acceleration to 18 selected SMEs/Start-Ups in the territories of the Azores, Canarias, Madeira and Réunion

The magic of sustainable success is nurturing the right nexus of collaboration across your Innovation Ecosystem.

→ **In three two-hour sessions, at monthly intervals, you will receive:**

1. A (Current State) Horizon Scan
2. A (Current State) Identification and Assessment of Business Ecosystem / Model
3. A (Future State) Determination of Desired Future State for Business Ecosystem / Model
4. A (Future State) Identification and Simulation of Pragmatic Actionable Interventions for Achieving the Desired Future State

→ **You will benefit through developing:**

1. Enhanced Understanding of Current State Business Activity from an Ecosystem Perspective
2. The Capability to Define a Desired Future State
3. The Ability to Travel Towards Future State in a Measurable Manner
4. Insights into Realistic High-Value Low-Effort Funding Opportunities

Achieving Sustainable Success through the right collaboration across the Innovation Ecosystem

→ **Selected High-Tech Start-Ups & SMEs will actively collaborate with INCORE University Partners in activities such as:**

- writing & submitting competitive EU funding proposal in powerful consortia
- facilitated recruitment of top talents from the universities
- engaging in cooperation agreements with universities for tranships programs
- supporting the creation and / or improvement of university resources for student discovery initiatives (facilities, awards, scholarships, testbeds, student clubs, ...)

Contact your INCORE Partner University or Dr. Oliver Schwabe via oliver.schwabe@tecnico.ulisboa.pt to learn more. Note: Formal company registration is required.
